Atlantic Debuts urb SPACE Brand of Furniture

Modular and multi-functional solutions

LAS VEGAS MARKET (Building B 2nd Floor – 201-1) – Las Vegas (January 20, 2017) — Atlantic Inc. introduces the new millennial focused urb SPACE furniture collection of over forty new pieces. “We are excited to share our new array of seating, shelving, coffee tables and accent furniture pieces. We have broadened this urban furniture line, incorporating storage and organization. We also have added several new items to our high-end, Italian made Caimi USA line”, remarked Leo Dardashti, Atlantic president and CEO.

The Urban Rustic Collection includes the Urban Hutch, Urban Cabinet and Urban Side Table. All are beautifully crafted with distressed, solid wood planks in various shades. The matching metal frame and drawer pulls are finished with a weathered look. All three offer shelving and matching drawers.

The Soren represents a new take on geometric modern metal and glass four tier shelving unit, measuring 15 inches by 27 inches by 50 inches. The black tempered glass shelves are framed with brushed brass tone tubular steel. The removable bar cart is easy to roll out when needed and later dock back in place with locking casters.

The Caimi USA Collection introduces the Pegaso glass table designed by Angelotti and Cardile which features a natural, soft, sinuous form reminiscent of the liberty style. The half-inch transparent tempered glass top has polished ground edges, measures 63 inches by 35 inches, and stands 29 inches tall. The polished die-cast aluminum structure consists of four monobloc legs and a tubular crossbeam.

The 41-inch, circular, high top, glass Cicerone table designed by Lorenzo Stano features powder-coated cast aluminum column and bright stainless steel over a steel base with a floor fastening device.

The novel supporting structure features handbag hooks. To view these and other products in the line, visit [CaimiUSA](#).

Look for these furniture pieces and more at fine retailers and online.
